## Speech & Critical Thinking Coaching

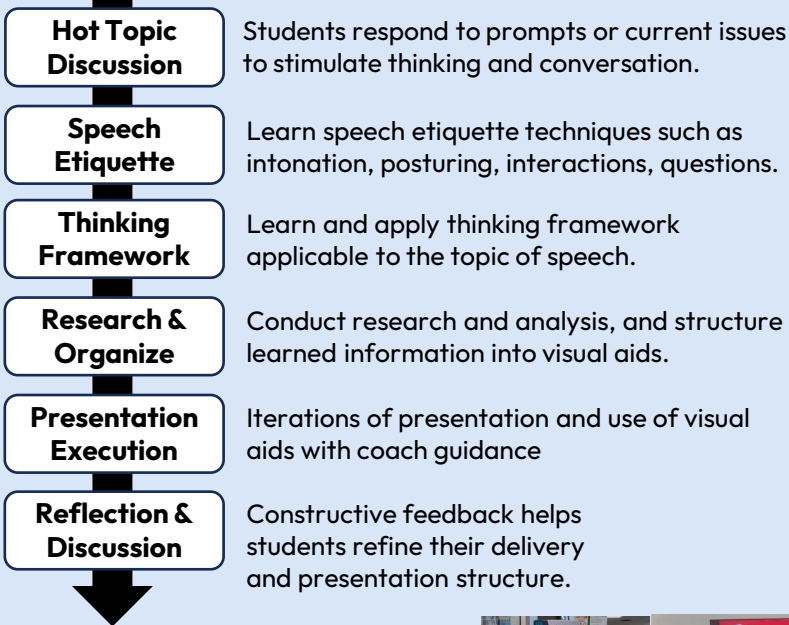

Equipping students with independent thinking and confidence in communication

Speech & Critical Thinking Coaching helps students develop the ability to think clearly, analyze issues and communicate ideas with confidence. Through general knowledge building, structured thinking frameworks and presentation practice, students learn how to organize their thoughts, support their viewpoints and engage meaningfully in real-world issues.

### Why This Program Matters

As students grow older, they are increasingly expected to think deeper and go beyond anecdotal examples. Formal or informal settings, the ability to think critically and speak persuasively is an essential skill. We equip students with tools to evaluate ideas, construct logical arguments and express their viewpoints confidently and respectfully.

### What happens every 1-2 classes?

### What will students develop?

#### Critical Thinking Skills

Analyze information, identify assumptions & evaluate perspectives - form well-rounded, independent views.

#### General Knowledge

Understand key topics in economics, society, current affairs - contextualize discussions and connect between ideas.

#### Structured Argumentation

Organize ideas into clear, logical arguments supported by reasoning.

#### Persuasive Communication

Expressing viewpoints convincingly while recognizing counterarguments.

#### Confidence in Expression

Confidence to articulate ideas clearly in both formal and informal settings.

### Trinity College Assessment

Our programs are aligned against TCL Communication Skills syllabus. Students will be recommended their suitable grade of assessment.
